In such event, the Contractor shall pay to the City upon demand the increased cost, if any, incurred by the City to procure such deliverables from another source.

E. If the Contractor is not the manufacturer, and the deliverables are covered by a separate manufacturer's warranty, the Contractor shall transfer and assign such manufacturer's warranty to the City. C. If the Contractor is unable or unwilling to perform its services in accordance with the above standard as required by the City, then in addition to any other available remedy, the City may reduce the amount of services it may be required to purchase under the Contract from the

Contractor, and purchase conforming services from other sources. In such event, the Contractor shall pay to the City upon demand the increased cost, if any, incurred by the City to procure such services from another source.

**23. ACCEPTANCE OF INCOMPLETE OR NON-CONFORMING DELIVERABLES:** If, instead of requiring immediate correction or removal and replacement of defective or non-conforming deliverables, the City prefers to accept it, the City may do so. The Contractor shall pay all claims, costs, losses and damages attributable to the City's evaluation of and determination to accept such defective or non-conforming deliverables. If any such acceptance occurs prior to final payment, the City may deduct such amounts as are necessary to compensate the City for the diminished value of the defective or non-conforming deliverables. If the acceptance occurs after final payment, such amount will be refunded to the City by the Contractor.

**24. RIGHT TO ASSURANCE:** Whenever one party to the Contract in good faith has reason to question the other party's intent to perform, demand may be made to the other party for written assurance of the intent to perform. In the event that no assurance is given within the time specified after demand is made, the demanding party may treat this failure as an anticipatory repudiation of the Contract.

**25. STOP WORK NOTICE:** The City may issue an immediate Stop Work Notice in the event the Contractor is observed performing in a manner that is in violation of Federal, State, or local guidelines, or in a manner that is determined by the City to be unsafe to either life or property. Upon notification, the Contractor will cease all work until notified by the City that the violation or unsafe condition has been corrected. The Contractor shall be liable for all costs incurred by the City as a result of the issuance of such Stop Work Notice.

DEFAULT:** The Contractor shall be in default under the Contract if the Contractor (a) fails to fully, timely and faithfully perform any of its material obligations under the Contract, (b) fails to provide adequate assurance of performance under Paragraph 24, (c) becomes insolvent or seeks relief under the bankruptcy laws of the United States or (d) makes a material misrepresentation in Contractor's Offer, or in any report or deliverable required to be submitted by the Contractor to the City.

**27. TERMINATION FOR CAUSE:** In the event of a default by the Contractor, the City shall have the right to terminate the Contract for cause, by written notice effective ten (10) calendar days, unless otherwise specified, after the date of such notice, unless the Contractor, within such ten (10) day period, cures such default, or provides evidence sufficient to prove to the City's reasonable satisfaction that such default does not, in fact, exist. In addition to any other remedy available under law or in equity, the City shall be entitled to recover all actual damages, costs, losses and expenses, incurred by the City as a result of the Contractor's default, including, without limitation, cost of cover, reasonable attorneys' fees, court costs, and prejudgment and post-judgment interest at the maximum lawful rate. Additionally, in the event of a default by the Contractor, the City may remove the Contractor from the City's vendor list for three (3) years and any Offer submitted by the Contractor may be disqualified for up to three (3) years. All rights and remedies under the Contract are cumulative and are not exclusive of any other right or remedy provided by law.

29. **FRAUD:** Fraudulent statements by the Contractor on any Offer or in any report or deliverable required to be submitted by the Contractor to the City shall be grounds for the termination of the Contract for cause by the City and may result in legal action.

30. **DELAYS:**

A. The City may delay scheduled delivery or other due dates by written notice to the Contractor if the City deems it is in its best interest. If such delay causes an increase in the cost of the work under the Contract, the City and the Contractor shall negotiate an equitable adjustment for costs incurred by the Contractor in the Contract price and execute an amendment to the Contract. The Contractor must assert its right to an adjustment within thirty (30) calendar days from the date of receipt of the notice of delay. Failure to agree on any adjusted price shall be handled under the Dispute Resolution process specified in paragraph 49. However, nothing in this provision shall excuse the Contractor from delaying the delivery as notified.

B. Any willful violation of this section shall constitute impropriety in office, and any officer or employee guilty thereof shall be subject to disciplinary action up to and including dismissal. Any violation of this provision, with the knowledge, expressed or implied, of the Contractor shall render the Contract voidable by the City. The Contractor shall complete and submit the City's Conflict of Interest Questionnaire.

**44. INDEPENDENT CONTRACTOR:** The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. The Contractor's services shall be those of an independent contractor. Failure to do so may adversely impact future invoice payments.

46. **WAIVER:** No claim or right arising out of a breach of the Contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waiver or renunciation is supported by consideration and is in writing signed by the aggrieved party. No waiver by either the Contractor or the City of any one or more events of default by the other party shall operate as, or be construed to be, a permanent waiver of any rights or obligations under the Contract, or an express or implied acceptance of any other existing or future default or defaults, whether of a similar or different character.

47. **MODIFICATIONS:** The Contract can be modified or amended only by a writing signed by both parties. No pre-printed or similar terms on any the Contractor invoice, order or other document shall have any force or effect to change the terms, covenants, and conditions of the Contract.

48. **INTERPRETATION:** The Contract is intended by the parties as a final, complete and exclusive statement of the terms of their agreement. Whenever a term defined by the Uniform Commercial Code, as enacted by the State of Texas, is used in the Contract, the UCC definition shall control, unless otherwise defined in the Contract.

49. **DISPUTE RESOLUTION:**

A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.

B. If the efforts to resolve the dispute through negotiation fail, or the parties waive the negotiation process, the parties may select, within thirty (30) calendar days, a mediator trained in mediation skills to assist with resolution of the dispute. Should they choose this option; the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Denton County Alternative Dispute Resolution Program (DCAP). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. The City and the Contractor will share the mediator's fees equally and the parties will bear their own costs of participation such as fees for any consultants or attorneys they may utilize to represent them or otherwise assist them in the mediation.

All issues arising from this Contract shall be resolved in the courts of Denton County, Texas and the parties agree to submit to the exclusive personal jurisdiction of such courts. The foregoing, however, shall not be construed or interpreted to limit or restrict the right or ability of the City to seek and secure injunctive relief from any competent authority as contemplated herein.

The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. Our data destruction processes are reviewed and validated by an independent party on a periodic basis. Quality controls are documented, implemented and monitored internally to ensure effectiveness of data sanitization, purging and destruction techniques. Security controls that are appropriate to the most sensitive classification of media accepted at our facility is documented, implemented and maintained. Security controls consider physical security, monitoring, chain-of-custody, and personnel qualifications. Adequate records of data destruction are maintained for 7 years.

## **Transportation and Disposal Facility Lists**

United Electronic Recycling, LLC ensures that all equipment, components, and materials to be transported are packaged appropriately in light of the risk they could pose during transportation to public health or the environment and the level of care warranted by their intended use. United Electronic Recycling, LLC verifies that our transporters, including our own fleet, have all the necessary regulatory authorizations, maintains adequate insurance coverage consistent with the material and method of transportation, and maintains an acceptable vehicle and driver safety record during the previous 3 years.

United Electronic Recycling, LLC has developed a written policy, to which we adhere, stating how we manage used and end-of-life electronics equipment, components, and materials – with respect to both onsite activities and the selection of downstream vendors – that is based on a hierarchy of responsible management strategies:

*Reuse* – United Electronic Recycling, LLC takes all practical steps to direct tested equipment and components to reuse and resale, and directs equipment capable of repair to qualified refurbishers, unless a customer directs otherwise,

*Materials Recovery* – United Electronic Recycling, LLC takes all practical steps to separate as appropriate, through manual dismantling and/or mechanical processing, the materials in equipment and components that are not directed to reuse or refurbishment and directs them to properly equipped materials recovery facilities.

*Energy Recovery or Disposal* – United Electronic Recycling, LLC will not direct material to incineration, energy recovery or land disposal facilities unless no reuse or recycling options are viable.

United Electronic Recycling, LLC analyzes plans, regularly reviews and updates as necessary how the Focus Material (FM) that pass through our facility or control will be properly managed both on-site and down the Recycling Chain (The FM Management Plan). The FM Management Plan states how United Electronic Recycling, LLC and our downstream vendors conform to the requirements set forth in the rest of Provision 5.

United Electronic Recycling, LLC sends removed FMs to processing, recovery, or treatment facilities that meet all applicable regulatory requirements to receive the FMs, and that utilize technology designed to safely and effectively manage, the FMs. This includes:

For items containing mercury – mercury retorting or other legal methods, excluding incineration,

For circuit boards – removal of batteries and mercury and processing for metals recovery, and

For items containing PCBs – technology specifically designed for PCB destruction, occurring in facilities that meet all applicable regulatory requirements and that use technology designed to safely and effectively manage equipment or components containing these FMs.

*Prohibition on Energy Recovery, Incineration, and Land Disposal of FMs*

United Electronic Recycling, LLC does not utilize energy recovery, incineration, or land disposal as a management strategy for FMs or equipment and components containing FMs unless applicable law requires the use of a specific technology (e.g., thermal destruction of PCBs). However, if documented extreme and rare circumstances beyond our control disrupt our normal management of an FM, we may consider these technologies to the extent allowed under applicable law until normal management is again possible.

*Selection and On-Going Due Diligence of Downstream Vendors for FMs*

For shipments of removed FMs, and shipments of equipment and components containing FMs, United Electronic Recycling, LLC selects both domestic and international downstream vendors that:

- (1) Conform to United Electronic Recycling, LLC's FM Management Plan, (UER-SOP-06)
- (2) Adherence to a documented system to manage environmental, health, and safety risks and legal requirements. The management system will include, at minimum, the components of Provision 3, and
- (3) Comply with all applicable environmental, health & safety legal requirements and maintain a current list of its environmental permits and copies of each, and
- (4) Conform to Section (e) and Section (1) below or allow United Electronic Recycling, LLC to confirm this information with each of our relevant downstream vendors, thereby establishing that each facility in the Recycling Chain conforms to these subsections, and,

- (5) Conform to Provision 6 (Reuse), if applicable, and
- (6) Conform to Provision 7 (Tracking Throughput), and
- (7) Conform to Provision 10 (Physical Security), ensuring security of the equipment down the recycling chain.

United Electronic Recycling, LLC confirms, at least annually and documents through audits or other similarly effective means that each downstream facility to which Section (e) applies continues to conform to the requirements of Section (e) for as long as it receives FMs directly or indirectly from United Electronic Recycling, LLC.

Where United Electronic Recycling, LLC uses an R2: 2013 certified downstream facility, then verification of conformance to 5(c)(1) and 5(c)(6) satisfies the due diligence requirements of 5(c) and 5(f)

*Initial Surveys*

When on-site audits are not logistically feasible, United Electronic Recycling, LLC sends a Downstream Vendor Survey (UER-F10) to its DSVs.

*For Non-Certified Downstream Vendors:* The survey is quite comprehensive and requires the DSV provide the completed survey along with the following: evidence of a documented EH&S management system that includes documented applicable EH&S legal requirements, copies of all required permits and licenses, Emergency Response Plans, Health & Safety Programs, Environmental Management Programs, and assigned responsibilities for EH&S elements; a description of its processes and an up-to-date material flow for their downstream vendors and evidence of tracking throughput, in the event they are not an end-of-life vendor, within a reasonable timeframe (30-days maximum). In addition, the 1<sup>st</sup> Tier DSV must provide the same information, including any import/export permissions/permits (where applicable) for the 2<sup>nd</sup> and/or 3<sup>rd</sup> Tier DSVs if the 1<sup>st</sup> Tier DSV is not the end-of-life processor. United Electronic Recycling, LLC uses form #UER-F20, Downstream Vendor Qualification Checklist, to ensure all required documentation is received from all DSVs.

*For R2: 2013 Certified Downstream Vendors:* Per the R2: 2013 Standard, the following documentation is required for R2: 2013 recyclers: Focus Material Plan showing the flow of FMs to end-of-life, copy of the R2: 2013 certificate, latest 3<sup>rd</sup> party audit report, evidence of tracking throughput for every recycler in the recycling chain, and legal documentation regarding importing/exporting (where applicable).

*For Downstream Refurbishers:* United Electronic Recycling, LLC sends an abbreviated version of the initial request for information (UER-F12a) Downstream Refurbisher Survey Form), requesting such documents as: a description of the test procedures used to check for functionality of key functions; identification of DSV's that are sent FM's for disposal unless returned to UER for proper disposal; information on the warranty/return policy; and information on warranty returns (%RMA's).

*For non-R2 certified DSVs:*

*All Tier I DSVs that are NOT end-of-life:* UER requires its TIER I DSVs that are not end-of-life to provide the required downstream vendor information for all the DSVs who receive focus material originating from UER throughout the recycling chain to end-of-life. The type of documentation required is dependent upon whether the DSV is an R2 certified or non-certified vendor and is listed in detail on the Downstream Vendor Checklist (UER-F20).

*NOTE: A DSV is not considered qualified to receive material from United Electronic Recycling, LLC. until all the documentation is received for all the facilities in the recycling chain through to end-of-life. A DSV will not be sent material or added to the Focus Material Plan until this requirement is fully met and the flow of material to end-of-life is completely transparent.*

*In the event any DSV is unwilling to provide the required information, UER will cease to use the DSV and begin looking for an alternative processor for the focus material in question. If the DSV is R2: 2013 certified, UER has the authority to report the DSV to its certification body, ANAB and/or R2 Solutions for non-compliance of an R2: 2013 requirement.*

*Desktop Audit (Re-Qualification and On-going Due Diligence)*

*For End-of Life Vendors:* At minimum, annually, UER performs a re-qualification audit using form UER-F12. UER requires its DSVs to notify them if they incur any significant violations but to ensure the DSV continues to conform to R2 Practice 5(e), UER checks several websites for any significant environmental, OHSAS, regulatory or statutory violations that may have occurred within the past year and documents the results on UER-F12. In the event any of the permits or certificates provided to UER initially are due to expire, UER will contact the vendor for current copies.

*For R2 Certified Downstream Vendors:* In addition to the desktop audit form, the following documents need to be received on an annual basis: a copy of their R2 certificate (if the last certificate was nearing its expiration date), a copy of their current Focus Material Plan, a copy of the audit report from their last 3<sup>rd</sup> party R2 audit and updated evidence of tracking throughput for every recycler in the recycling chain.

*For Refurbishers:* In addition to the desktop audit (UER-F12a), UER will request a copy of a manifest for FM waste sent for disposal to show they are using the initially (or different) disposal company; return/warranty data; and % reuse data (e.g., if UER sent the vendor 75 laptops to repair/refurbish, how many actually were "reused").

### **Safety Record**

UER meets and or exceeds all prevailing safety measures pertinent to its operation including the Environmental Protection Agency regulations, State of Texas regulations, local city ordinances and OSHA regulations. UER trains its support personnel to these safety standards. All UER employees follow the UER safety protocol, have adequate safety training, and perform all job functions with safety procedure. UER has had zero safety incidents in its entire history.

### **Third-Party Certification**

UER obtained the R2:2013, OHSAS 18001:2007, and ISO 14001:2004 Certifications in 2014 and adheres to these policies. Perry Johnson is our third party auditing company. In the fall of 2019 R2 will have a new release of the R2 certification which will be adopted by United Electronic Recycling, LLC.
