

MEMORANDUM

DATE: October 23, 2026
TO: The Honorable Mayor Watts and Council Members
FROM: Cassey Ogden, Interim City Manager
SUBJECT: Friday Staff Report

Upcoming Meetings

1. **CANCELLED** - Development Code Review Committee on **Monday, October 26, 2026**, at **3:00 p.m.** at the Development Service Center.
2. **CANCELLED** - Zoning Board of Adjustment on **Monday, October 26, 2026**, at **5:30 p.m.** at the Development Service Center.
3. Work Session of the City Council on **Tuesday, October 27, 2026**, at **1:00 p.m.** in the City Council Work Session Room followed by a Special Called at **6:30 p.m.** in the Council Chambers.
4. **CANCELLED** - Mobility Committee on **Wednesday, October 28, 2026**, at **10:00 a.m.** in the City Council Work Session Room.
5. Sustainability Framework Advisory Committee on **Wednesday, October 28, 2026**, at **1:00 p.m.** in the City Council Work Session Room.
6. Civil Service Commission on **Wednesday, October 28, 2026**, at **11:30 a.m.** at City Hall East in HR Training Room 1.

Please check the City of Denton website for final meeting days and times as information is subject to change after the Friday Report is published. [Public Meetings & Agendas | Denton, TX \(civicplus.com\)](https://www.denton-tx.gov/civicplus)

OUR CORE VALUES

Inclusion • Collaboration • Quality Service • Strategic Focus • Fiscal Responsibility

General Information & Status Updates

- A. Lead Pipe Compliance Program – Denton households with private water service lines made of lead, galvanized material, or an unknown material will receive a postcard notification next month. Under the U.S. Environmental Protection Agency's (EPA's) Lead and Copper Rule (LCR) Revision, public water systems were required to complete a lead service line inventory in 2024. Following this inventory, the City must send annual notifications to households with one of these three service line materials until their line is replaced or properly identified. The mailer informs customers of:
- a. Their service line material type, as identified in the LCR inventory:
 - Lead: All or part of the service line is made of lead. These homes may have an increased risk of lead exposure through drinking water.
 - Galvanized Requiring Replacement (GRR): All or part of the line is galvanized. Galvanized lines can absorb lead if they were ever downstream of a lead service line. Because our records cannot confirm whether lead was ever attached, these lines must be classified as GRR as a precaution.
 - Unknown (may contain lead): The line material could not be confirmed and may contain lead or galvanized material requiring replacement.
 - b. Steps residents can take to reduce the risk of lead exposure.
 - c. How to request information and assistance regarding their service line material type, or to discuss options for a manageable service line replacement plan.
 - d. How to notify Denton Water Utilities if their service line has been replaced so the City can update service records and stop future notifications.

Customers can look up their property on the [interactive service line map](#). If a customer believes their service line is not one of these three types, they can request an inspection from Denton Water Utilities.

The City performs routine lead and copper testing per the Safe Drinking Water Act. Since testing began in the early 1980s, Denton has never had a water sample that approached or exceeded the EPA action level. Water Utilities maintains an effective, EPA-approved corrosion control treatment program that prevents lead from leaching into drinking water from private lead pipes, connectors, or plumbing fixtures. Staff contact: Stephen Gay, Water Utilities

Responses to Council Member Requests for Information

- A. Traffic Safety on Forrestridge – On Oct. 19, Council Member Holland shared an inquiry regarding traffic safety concerns related to speeding and illegal passing of school busses on Forrestridge Drive between Wellington Oaks and Ryan Road. This area is currently monitored, and police will take enforcement action when violations are observed. To date, the Police Department has not received any complaints from Denton ISD Transportation about illegal passing of school buses in this area. Staff contact: Tony Salas, Police

- B. Sherman Drainage Basin – On Oct. 9, Mayor Pro Tem Stevens shared an inquiry from a resident regarding ongoing litter issues in the Sherman Drainage Basin. Community Improvement Services (CIS) staff inspected the site on Oct. 13 for code violations. The property owner, the Homeowners' Association (HOA), was notified of trash and debris and standing water violations and given a reinspection date of Oct. 20. The issues were not corrected, and the HOA was issued a Notice of Violation to cure by Nov. 3. For ongoing enforcement, CIS staff will conduct a weekly inspection for the next three months. Additionally, Development Services staff have requested a remediation timeline from HOA for rehabilitating the basin to its original condition. Staff contact: Jesse Kent, Community Services

- C. Running Track at McMath Middle School - On Oct. 19, Council Member Holland shared an inquiry from a resident regarding the running track at McMath Middle School, which now includes fencing. The City of Denton and Denton ISD approved a land exchange in 2025 that transferred ownership of the land the track sits on to Denton ISD. In exchange, the City received land around the former Calhoun Middle School, which has since been named Congress Street Park. Staff contact: Jen Basham, Parks & Recreation

- D. Pedestrian Traffic on Bronco Way – On Sept. 28, Council Member Rumohr shared an inquiry regarding potential safety improvements for the intersection of Bronco Way and Chivalry Drive. Transportation Services staff conducted safety audit and an engineering assessment for this intersection. During Denton High School start and end times, staff observed about 20 students crossing Bronco Way. Although the posted speed limit during school times is 20 mph, staff observed yielding issues between cars on Bronco Way and exiting traffic from the student parking lot, and, most importantly, vehicles failing to yield to pedestrians leading to hesitation and confusion.

Based on field observations, staff will install an all-way stop at the Chivalry Drive intersection. Installation is expected by Oct. 30. Staff contact: Chandra Muruganandham, Transportation Services

- E. Advanced Metering Infrastructure Notification Process – On Oct. 20, Council Member Rumohr shared an Advanced Metering Infrastructure (AMI) project inquiry about the notification process from a resident. Water Utilities staff have been in contact with the resident.

For reference, below is the AMI pilot-phase notification timeline:

- **1–2 weeks prior:** General postcard notification and targeted text messages to impacted neighborhoods and AMI project subscribers.
- **72 hours prior:** Automated courtesy phone call.
- **Day of installation:** Door hanger at the residence.

Staff contact: Stephen Gay, Water Utilities
